The Province of Quebec

Quebec has a population of over 7 million and nearly half live in the greater Montreal area, making Montreal one of the largest francophone urban settings in the world. Described by missiologists as “the largest least-reached group in North America”, Quebec is in real need of church planting efforts and of the renewal and strengthening of existing churches. In this setting which exemplifies the meaning of “post-Christian” and “post-modern”, Christian witness in Quebec must come out of transformed lives and demonstrate a new experience of community and service in Christ. It is our hope that partnership and a willingness to proclaim Christ with an accent on service and the building of relationships remain at the centre of our experience of following Jesus in this context.

A foundational biblical reference for our partnership in ministry is...

Accept one another, then, just as Christ accepted you, in order to bring praise to God (Romans 15.7)

David & Patricia Miller

Serving in Quebec through church
planting and leadership development

David & Patricia (project #3397)

David and Patricia are both originally from the US and came to faith in Christ during their high school years. They moved to Quebec City as church planters with BICWM in 1981. During their years in Quebec City (1981-97), they developed a deep love for Quebec and for living for Christ in this context. After a time of ministry in Pennsylvania (1997-2004), they returned to Quebec, this time to the Montreal area to again be involved in church planting. Since 2004, David and Patricia have been partnering with Patrice and Cindy Nagant in planting and leading "Intersection" a young MB church in Terrebonne. David also serves in leadership development with the mennonite brethren churches.

David and Patricia have three children: Jessica (1978), Laura (1985) and Andrew (1988).

Rendez-vous Montréal

Church planting (project #9132)

"*Rendez-vous Montréal*" is an initiative of the Canadian and Provincial conference of Mennonite Brethren churches to enable the planting of new churches in the greater Montreal area. This effort is made possible through several provincial, national and international partnerships. The significant need to share the Good News of Jesus Christ in Quebec moves us to value the partnerships among various agencies, organizations and denominations with the goal of inviting the Québécois to experience a restoring relationship with Jesus.

Horizon Québec (project #9122)

Church growth and church development

"*Horizon Québec*" is a project that concentrates on church development, training church workers, and developing new ministries that will foster the expansion of God's work in the province of Quebec.

"*Horizon Québec*" offers an invitation to partner in the development of Quebec churches by:

- supporting and sending missionaries to serve with us in Quebec; and
- providing financial support for church workers or for the training of potential workers from Quebec.
